

commands/registry.h

main.c

```
graph BT; main_c[main.c] --> registry_h[commands/registry.h]; main_c --> main_c;
```

The diagram illustrates the relationship between two source files. A box labeled 'main.c' is positioned below a box labeled 'commands/registry.h'. A straight blue arrow points from the top of the 'main.c' box to the bottom of the 'commands/registry.h' box, indicating that 'main.c' depends on or includes 'commands/registry.h'. Additionally, a curved blue arrow originates from the right side of the 'main.c' box and points back to its left side, representing a self-dependency or a circular reference within the 'main.c' file.
